# SAN PEDRO IS TO LET CONTRACTS

Directors to Hold Important Meeting in Salt Lake.

CAMPAIGN TO BE OUTLINED Strong Company Organized to Get

THOUSANDS OF MEN WILL BE EMPLOYED IN UTAH.

Senator W. A. CLARIA. R. C. Kerens, Senator Thomas Kearns, J. Ross Clark and other men who guide the affairs of the San Pedro, Los Angeles & Salt Lake road, are expected to arrive in Salt Lake within a short time to hold an important meeting. At this session it is expected that the engineers maps and reports on traffic possibilities and other important matters will be gone over thoroughly and that a vigorous campaign for the coming summer will be outlined.

It is expected that the directors will meet and approve the maps for most of the route surveyed and that bids will be asked for a large part of the construction. Contracts will probably be let for work out of Salt Lake, for grading below Calientes in the Meadow valley wash and beyond, for grading east and west from a point near the terminus of the California Eastern and for a continuation of the work already under way in California.

The directors are expected to arrive within the next two weeks, and they will remain in the city until their business is completed. It is possible that they will make a trip in wagons over the route from Salt Lake to Los Angeles.

route from Salt Lake to Los An-

The San Pedro will spend several millions of dollars in the state this year and give employment to thousands of men. The survey calls foreavy work in some places, and this neems greater expenditures for labor, it is believed that the read can be It is believed that the road can be completed and in operation within

## MOFFAT ROAD NO CERTAINTY. Vice President Says That the Future Is Undecided.

Is Undecided.

The building of the Denver & Northwestern between Denver and Sait Lake is by no means a certainty, according to Vice President William G. Smith, who is acting as manager. Mr. Smith, is ar interview in Denver, says that nothing is absolutely settled beyond the fact that the road will build to the coal fields near the point to which it has let a contract for grading. Beyond that the project is in the air, according to Mr. Smith.

Reliable sources of information are

Reliable sources of information are to the effect that D. H. Moffat has made up his mind to build the road, but that he has not yet raised the money to accomplish this end. He is at present in the east, seeking to float the proposition, and no positive word has been received that he is success-ful. Mee who have his confidence state that he is determined absolutely to

While he was in San Francisco, Mr. Bancroft took up with Mr. Harriman the union depot question and there was a report at headquarters yesterday that a decision had been reached to build a separate passenger station for the Short Line on the site between South Temple and First South, just south of the present depot. This has been understood by many for some time to be the intentation of the Short Line, and it is said that Mr. Harriman has ratified this pian.

Mr. Harriman will probably visit the said of the Shork Line and the said of the Shork Line and the said of the Short Line and the said the said that Mr. Harriman will brobably visit the said of the Shork Line and Third South streets.

Bank Clearings Larger.

The week started out with a hend-some increase in the bank clearings. Yesterday they amounted to \$778.787, which is a gain of \$257,726 over the corticular to the said of the Short Line and Third South Streets.

Bank Clearings Larger.

The week started out with a hend-some increase in the bank clearings. Yesterday they amounted to \$778.787, which is a gain of \$257,726 over the corticular to the said of the Short Line and Third South Streets.

Mr. Harriman will probably visit Salt Lake personally in a short time.

# ELECTRICITY FOR THE G. N. Engineers Locate Water Power in

Cascade Mountains.

Tacoma, Wash. April 21.—By order of Fresident Hill, Great Northern engineers have taken up the question of carly utilization of water in the Cascade mountains for generation of electric power with which to operate Great Northern trains across the Cascade mountains for a distance of 190 miles.

During the past mouth the Great Northern engineers have been locating water power rights and power house rights on the rivers and creeks in the Cascade mountains configuous to the Two-Mile Cascade tunnel, which the failread finished cast year. The third tail system will be used.

Heintz of the Rio Grande are expected back from the coast next week.

Andrew Glbson of Tacoma has been appointed superintendent of the Yellowstone division of the Northern Pacific, to succeed Newman Kline, recently transferred to the Pacific division. Gibson has been in the engineering department for about fifteen years.

# MACHINERY TRADE BIG

# Share of Large Business in Mining Supplies.

Sait Lake is to have another big mining machinery and hardware supplied the affairs of the San Pedro, Los Angeles & Sait Lake road, are expected to arrive in Sait Lake within a short time to hold an important meeting. At this session it is expected that the engineer's maps and reports on traffic possibilities and other important matters will be gone over thoroughly and that a vigorous campaign for the coming summer will be outlined.

It is expected that the directors will meet and approve the maps for most of the route surveyed and that bids will be asked for a large part of the construction. Contracts will probably be let for work out of Sait Lake, for grading below Culientes in the Meadow valley wash and beyond, for grading the contracts with the company. Associated with him in the management will be Arthur J. Lowe, who for the past fifteen years has been with the Scott-Strevell Hardware company. Associated with him in the management will be Arthur J. Lowe, who for the past fifteen years has been with the Scott-Strevell supports the contracts with the contracts with the said that a support of the contracts will probably be get for work out of Sait Lake, for grading have a support of the contracts will probably be get for work out of Sait Lake, for grading have a support of the contracts will probably be get for work out of Sait Lake, for grading have a support of the contracts will probably be get for work out of Sait Lake, for grading have a support of the contracts will probably be get for work out of Sait Lake, for grading the contracts will be asked for a large part of the contracts will probably be get for work out of Sait Lake, for grading the contracts will be said to have another building machinery and hardware supplied which will compete for a share of the rapidly expanding business in these lines, amounting during last year in this city to more than \$2,000,000. The new concern will begin to the the woncern will be sait year in this city to more than \$2,000,000. The new concern will begin to the tota
